

Saltgate launches Sixth Form bursaries at Victoria College

Media release | Wednesday 18 December 2019

At Victoria College, we're passionate about making a high quality education accessible to any Jersey boy who is motivated to develop his talents and aim high. Currently, 53 boys across both Victoria College and Victoria College Preparatory School are supported on a range of partial to full bursaries. With the support of our Foundation Partners, like Saltgate, Victoria College is able to offer bursaries to those boys whose families need it most.

Saltgate CEO, Simon Riley; Victoria College Head of Sixth Form, Alan Falle; and Saltgate Head of ESG, Sacha Patel.

Alan Falle, Victoria College's Head of Sixth Form: "On behalf of Victoria College and our Foundation, I'd like to thank Saltgate, for their commitment to supporting two Sixth Form full bursaries and the additional offer of paid work experience at Saltgate.

"I've recently joined Victoria College from Hautlieu, but as an Old Victorian myself, I can personally attest to the unique education experience we offer here at Victoria College. We offer the widest co-curricular programme in Jersey, and so our boys receive a rounded education which makes them stand out to future employers. This, coupled with our varied careers programme and network of corporate supporters, means that we are able to offer our Sixth Formers fantastic career opportunities – setting them on a solid path for life beyond College."

Building successful futures

Sacha Patel, Saltgate's Head of Environmental, Social & Governance: "As a good corporate citizen, Saltgate's ESG strategy is firmly focused on supporting the education sector. Most recently, we've sponsored the Jersey Learning Conference, for teachers from all of Jersey's schools; the Promoting Healthy Young Minds conference this summer; and two Jersey Festival of Words events, held at Victoria College."

Simon Riley, Saltgate's CEO: "As Foundation Partner, we're looking to further invest in Jersey's young people and the future of the island's talent pool. It means a lot to us at Saltgate to give Jersey's talented, young people access to the best education and career opportunities, regardless of their financial means."

ENDS.

NOTES

Victoria College is Jersey's oldest States school and has been delivering high quality education to the Island's boys since 1852. There are currently 660 students in the secondary school and 300 at VCP. The schools nurtures respectful, resourceful and resilient young people who have the skills, attitudes and values to be successful and positively contribute to society.

The Victoria College Foundation was launched in 2002 as part of the 150th anniversary of the opening of Victoria College. It was created to support the ever-changing needs of school life and help sustain the long-held tradition of providing a high quality education for all.

Foundation Partners contribute a minimum sponsorship of £6,000 (renewable annually), approximately the cost of a year's school fees. These much valued funds go towards funding bursaries (we currently support 53 boys on a range of full to partial bursaries), enhancing our facilities, supporting our students and staff with additional equipment or activities that enhance their learning (when not covered by our school's budget) and maintaining the Old Victorian alumni network.

Importantly, Foundation Partners also contribute their time and expertise to our student's career development by taking part in our Careers Fairs, Careers Speed Networking event, mock job interviews and more.
