

September 2026

Nasal Flu programme delivered in schools, from Reception through to and including Year 11

Dear Parent/Guardian

As part of the childhood vaccination programme, your child's annual nasal flu vaccine is now due to be given. Even if your child received the nasal flu vaccination last year, it's important they have it again this year to ensure they receive protection against flu ahead of the winter months.

Flu is an unpleasant illness and can lead to serious complications in children. The nasal vaccination is safe, quick and painless for your child. This immunisation is the best protection we can give your child against unpredictable winter flu viruses.

We know that children are the super-spreaders of flu during the winter, so by vaccinating your child, and thereby helping prevent them from catching flu, you will also help prevent them from passing flu onto vulnerable friends and family, such as grandparents and those with long-term health conditions.

Please follow this link to read the information leaflet for the [Children's nasal flu vaccine](#).

Note the school timetable below, which is also available online [School visits for the flu vaccination](#) - it shows the dates when the nurses will be delivering this programme in your child's school.

Complete and return the consent form – Your child has been given a consent form to bring home. Please return your completed form to your child's school as soon as possible. It's important we are aware of your wishes. This may also save your child's school having to contact you.

If you change your mind after returning your child's form, it is your responsibility to go into school and make any changes to your child's form before the nurses attend to deliver this programme.

As with all vaccinations, taking up this offer of protection is voluntary, however, we strongly recommend your child has this vaccine to help protect them against flu this coming winter.

Further information is also available at www.gov.je/flu.

Please call the Immunisation Team on 01534 443741 or email immunisationteam@health.gov.je if you have something you wish to discuss.

Kind Regards

The Immunisation Team
Public Health, Jersey

Timetable of Nasal Flu Vaccination in **Primary Schools**: September/October 2026
